

Organizing a school-based event for a cause they believe in is a great way for students to learn how they can make a difference. At the same time, these young people discover the personal rewards and life-lessons of community involvement. They become part of a solution, joining with others both inside and outside of the school community.

That's why we created a new scholarship program for these caring students.

Our "Heart of the Community" scholarship recognizes and rewards the achievements of outstanding youth who have contributed to their community by raising funds for the fight against heart disease and stroke. This award is open to graduating high school students intending to pursue post-secondary education on a full-time basis in the following academic year, and who have organized or coordinated a Community-Based fund raising event, either in their school or their community, in support of the Heart and Stroke Foundation of Saskatchewan.

Each year, the Heart and Stroke Foundation is offering one scholarship of \$1000 to a student graduating high school in Saskatchewan.

Just as the Heart and Stroke Foundation works hard to build a healthier future for Saskatchewan, we know there are students in our province who are working to grow their schools and communities. We are proud to recognize these future leaders and role models with scholarships.

They want to make a difference. We're here to give them a boost.

You and your students can learn more about our Hearts of the Community scholarship program by calling me at 1-888-473-4636. I would be pleased to provide information on Community-Based Fundraising for students – ideas, tools and resources that students can use to create their own event. I look forward to hearing how your students are joining the fight for a healthier future.

Yours truly,

A handwritten signature in cursive script that reads "Debbie Brown".

Debbie Brown  
Fund Development Assistant
